

Population Distribution when $H_0: \mu = 180$ is true

Distribution of \bar{x} of $n = 5$ observations given $H_0: \mu = 180.00$

Distribution of \bar{x} of $n = 20$ observations given $H_0: \mu = 180.00$

Distribution of \bar{x} of $n = 50$ observations given $H_0: \mu = 180.00$

Distribution of \bar{x} of $n = 100$ observations given $H_0: \mu = 180.00$

Distribution of \bar{x} of $n = 500$ observations given $H_0: \mu = 180.00$

Distribution of \bar{x} of $n = 1000$ observations given $H_0: \mu = 180.00$
